COLOR (RGBW) LED SPEC SHEET

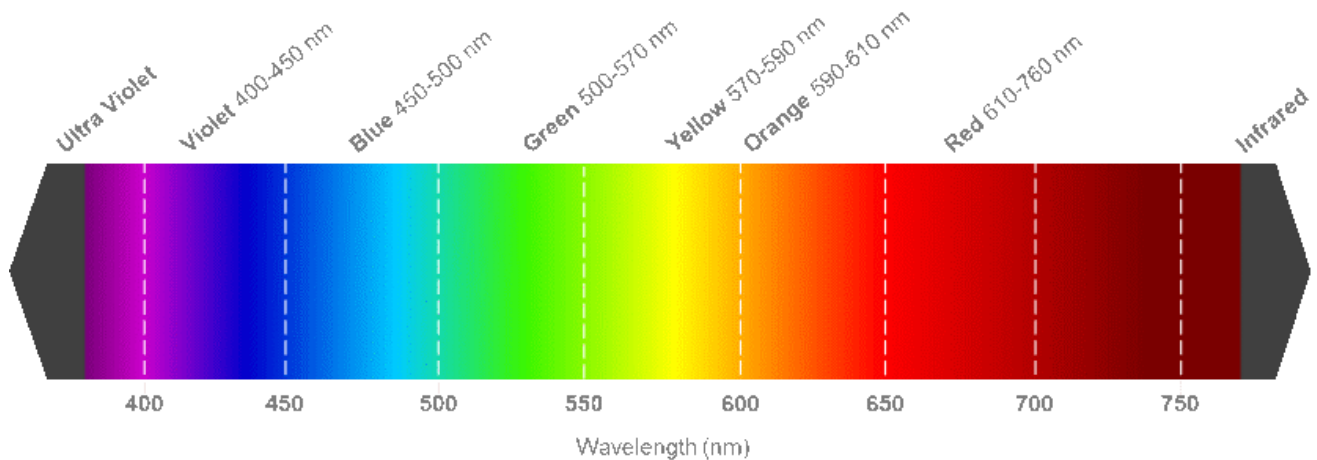

FOR LUMAWALL AND LED EDGE LIT GLASS

Our high-density Ribbon Star RGBW 4 in 1 LED strip lights provide a dense array of color changing plus white surface mount diodes to create bright and vivid lighting with less noticeable dots or hot spots. The 4 in 1 chip is designed to create RGB color changing lighting as well as a 6000-6500K cool white output. When all four colors are on full brightness the strip light produces approx. 384 lumens per foot.

- Chipset: High Output SMD5050
- Color Wavelengths:
 - R: 620 - 625nm
 - G: 515 - 525nm
 - B: 465 - 470nm
 - W: 6000K
- 10mm White PCB
- Voltage: DC24V
- Power Consumption: 20-24W/M
- Waterproofing: IP20 non waterproof
- CRI: ≤ 80
- Warranty: 3 Years
